## PROFESSIONAL EXPERIENCE

**Product Tester** Jan 2023 – Jan 2025

*Best Buy (Brampton Warehouse – DC) — Brampton, ON*

- Conducted thorough testing of consumer electronics such as computers, laptops, gaming consoles, smartphones, smartwatches, cameras, speakers, and printers.
- Performed data wiping, formatting, and OS installations on various devices.
- Led brief training sessions for new employees to ensure they are prepared for electronic product testing.
- Played a key role in quarterly warehouse sales by processing products for grading based on their condition.
- Conducted product audits to ensure quality control and compliance with standards.
- Utilized Windows programs to monitor product location and status for efficient inventory management.
- Managed product organization for order fulfillment.
- Demonstrated adaptability by assisting with additional technical and logistics tasks as needed.

**Global IT – Service Desk Analyst** Mar 2022 – Oct 2022

*Lucy Electric Manufacturing & Technologies — Global Support — Vadodara, Gujarat, India*

- Created and deleted domain and email credentials for new hires and departing employees in a hybrid AD model (Cloud & Windows-based).
- Provided L1 Service Desk support as the first point of contact for ~1,000 global users, resolving 15–20 tickets per day while maintaining SLA compliance.
- Distributed applications via desktop and mobile versions of the Software Centre Management Tool (MDM).
- Managed the ServiceNow ticketing platform to assign tickets to Level 1 and Level 2 teams (P1/P2).
- Participated in major incident communications, coordinating updates and maintaining Red/Yellow/Green outage status indicators.
- Produced and updated knowledge base articles as necessary.
- Set up guest Wi-Fi accounts using the Meraki tool and configured VPNs for remote work users.
- Granted folder/printer access per established procedures.
- Provided global remote assistance and phone support across multiple countries including Brazil, Thailand, China, Malaysia, South Africa, Saudi Arabia, UK, India, and UAE.
- Escalated LogicMonitor alerts to the relevant teams regarding network/server issues.
- Resolved problems with desktop applications, slow computers, printers, networks, Outlook configurations, video conferencing, and audio conferencing.

**IT System Engineer** Aug 2021 – Feb 2022

*Ascendum KPS Pvt. Ltd — Ahmedabad, Gujarat, India*

- Created or deleted domain/email credentials for new or departing employees.
- Ensured folder access complied with requirements and procedures.
- Used an in-house ticketing tool to assign tickets to engineers.
- Monitored system performance and kept specifications up to date.
- Troubleshot LAN issues, wireless LAN configurations, Outlook settings, video/audio conferencing problems, ISP outages, etc.
- Conducted system rollouts for new hires and remote workers.
- Provided telephone support as well as remote and on-site troubleshooting for hardware and software.

**SR Technical Service Advisor (SR Service Desk Engineer)** Oct 2020 – Aug 2021

*Progressive Infotech Pvt. Ltd — Noida, UP, India*

- Managed domain/email credentials for new hires or leavers.
- Communicated via email with users and teams regularly.
- Opened tickets for user access issues with detailed information including screenshots of errors and necessary approvals.
- Assigned tickets to appropriate teams or individuals (Server/NW/Application/Helpdesk).
- Handled maintenance activity notices through P1/P2 tickets and email correspondence.
- Skillfully addressed customer inquiries by recognizing their tones.

**Block Coordinator** Sep 2019 – May 2020

*Integrated Child Development Services (ICDS) — Anand, Gujarat, India*

- Solved problems related to common application software phones and provided telephone support to 121 AW workers.
- Monitored and analyzed daily, weekly, and monthly reports; communicated regularly via email with district-level coordinators and program officers.
- Coordinated with 4 supervisors and AW workers regularly.

**IT System Engineer** Sep 2018 – Sep 2019

*Ascendum KPS Pvt. Ltd — Ahmedabad, Gujarat, India*

- Created or deleted domain/email credentials for new or departing employees.
- Ensured folder access complied with requirements and procedures.
- Used an in-house ticketing tool to assign tickets to engineers.
- Monitored system performance and kept specifications up to date.
- Troubleshot LAN issues, wireless LAN configurations, Outlook settings, video/audio conferencing problems, ISP outages, etc.
- Conducted system rollouts for new hires and remote workers.
- Provided telephone support as well as remote and on-site troubleshooting for hardware and software.

**Associate Technical Support** Feb 2018 – Aug 2018

*Collabera Services Pvt. Ltd — Vadodara, Gujarat, India*

- Functioned as a 'Chatbot' Agent for Collabera Applications on ARIA (Automated Responsive Intelligent Agent).
- Provided L1 technical support to 1,100–1,200 users, resolving 30–40 tickets daily via phone, chat, and remote assistance.
- Provided floor support for hardware troubleshooting including desktops and printers.
- Offered telephone (Cisco VOIP) and online remote assistance to Collabera users.
- Opened tickets on behalf of users with detailed error information.

**IT Support Engineer** Mar 2017 – Feb 2018

*Shree Kamdhenu Electronics Pvt. Ltd — Anand, Gujarat, India*

- Achieved 98% installation success rate in villages under the CAS project.
- Trained system operators in software functionality.
- Provided telephone and remote support to field technicians in rural dairy cooperatives.
- Developed an online milk collection system for updating daily data on the Amul portal.
